Trent Express West Bank Route

Starting Monday May 30, 2011, the routing for the West Bank Trent Express will change on the inbound trip . This is due to safety concerns with our busses backing up at the terminal. With this route change, the Trent Express West Bank busses will no longer be required to make a three point turn at the terminal to continue on their route.

The bus will leave Traill College on the inbound trip, turn left onto Reid Street, and proceed towards McDonnel Street. At McDonnel Street the bus will turn left and proceed along McDonnel Street heading East towards George Street. At George Street the bus will turn right and proceed along George Street heading south to Simcoe Street. At Simcoe Street the bus will turn right heading west and proceed to the Peterborough Transit Terminal.

Bus stops will be relocated to reflect this route. There will be a new Trent Express stop located on the South side of McDonnel , East of Reid Street. (in front of Medi Chair) The next stop will be located on George Street, south of Brock Street, at the existing stop used by the George Street North and Trent Express East Bank.

Trent Express stops which will be removed are as follows: Reid Street south of McDonnel, and Simcoe Street between Reid Street and Rubidge Street.
